SUMMARY

NetSuite Techno-Functional Consultant with 8+ years of hands-on experience across implementation, customisation, and integration. Full-stack on the platform: SuiteBuilder, SuiteScript 1.0 to 2.1, SuiteFlow, SuiteAnalytics, SuiteBundler, and REST web services. Delivered end-to-end EDI and intercompany implementations, procurement network and CRM integrations, manufacturing and WMS modules, custom approval workflows, and reporting on saved searches, datasets, and SuiteQL. Currently pairing NetSuite with AI: agents that read invoices and purchase orders, and MCP-driven automations that act inside the ERP, with people approving exceptions.

EXPERIENCE

Sr. Solution Strategist — Jan 2025 – Present
SankalvaX · Pune, India

- Designed AI-driven NetSuite assistants using MCP server integration for bank reconciliation and purchase approvals, with narrow RESTlet tools and a human review gate for exceptions.
- Built React dashboards that show agent actions, workflow progress, and NetSuite data in real time.
- Integrated Power BI with NetSuite over ODBC for live financial dashboards, cutting manual reporting work by about 40%.
- Built AI document agents that read vendor invoices and customer purchase orders and create vendor bills and sales orders with validation against POs, customers, and items.

Lead NetSuite Techno Functional Consultant — May 2022 – Jan 2025
Wesco · Pune, India

- Led multiple ERP rollouts including intercompany and multi-subsidiary configurations.
- Implemented the Manufacturing module for a discrete manufacturer: work orders, assemblies, routings, BOMs, work centres, and costing dashboards.
- Built SuiteScript integrations with Salesforce, Shopify, SAP Ariba (cXML), Boomi, and EDI partners.
- Delivered an India e-invoice integration (IRN, QR code, e-way bill), a multi-subsidiary AR/AP aging Suitelet, and a freight and landed-cost data model.
- Mentored junior consultants on SuiteScript and solution design.

Application Developer — Feb 2021 – May 2022
KPI · Mangaluru, India

- Built Suitelet-based web apps for login, dashboard, timesheet, payroll, and leave management so staff could work without NetSuite licences.
- Developed Map/Reduce, RESTlet, and workflow action scripts for finance and inventory processes.

NetSuite Technical Consultant — Mar 2018 – Feb 2021
Freelance · Karnataka, India

- Delivered full-cycle implementations for small and mid-sized businesses across order-to-cash and procure-to-pay.
- Ran UAT and end-user training, data migration during upgrades, and wrote SOPs and technical documentation.

SELECTED WORK

- **AI agents inside NetSuite.** MCP-connected assistants for bank reconciliation and purchase approvals with a live React dashboard; routine validation and record creation now run through the agents.
- **Manufacturing module implementation.** Work orders, routings, BOMs, and costing for a discrete manufacturer; end-to-end production visibility in one system.
- **Suitelet web apps for HR.** Timesheets, payroll, and leave handled in NetSuite-backed apps with no NetSuite licences required.
- **Power BI over ODBC.** Real-time balance sheet, income statement, AR and AP dashboards; manual reporting down by about 40%.
- **One-click email PO approval.** Two-stage approvals through tokenised single-use links handled by an available-without-login Suitelet.
- **Transaction numbering framework.** Hybrid native and scripted numbering for custom transaction types with a journal-number validator.

SKILLS

NetSuite platform

SuiteScript 1.0 / 2.0 / 2.1, SuiteBuilder, SuiteFlow, SuiteAnalytics, SuiteBundler, SuiteQL, Saved Search, Datasets & Workbooks, Suitelets & RESTlets, Map/Reduce & Scheduled, Advanced PDF / FreeMarker, Custom Records & Forms, Roles & Dashboards, SDF

Integrations

REST Web Services, OAuth 1.0 / 2.0 & TBA, EDI, Shopify, SAP Ariba (cXML), Boomi, Salesforce, Monday.com, SFTP, CSV Import & Mass Update

AI & tooling

NetSuite MCP Server, Claude Skills, OpenAI API, AI document extraction, Prompt Engineering, React, Power BI (ODBC), JavaScript, SQL

Business processes

Order to Cash, Procure to Pay, Inventory, Manufacturing, WMS, Intercompany / OneWorld, Project Management, Support Cases, Payment Requests

CERTIFICATIONS

- Oracle NetSuite Certified Financial Associate
- Oracle NetSuite Certified BI & Reporting Associate
- Oracle NetSuite Certified AI Foundations Associate
